

$$43+98 \div \{149-6\times(32-25)-58\}$$

$$\begin{aligned} & 43 + 98 \div \{149 - 6 \times (32 - 25) - 58\} \\ &= 43 + 98 \div (149 - 6 \times 7 - 58) \\ &= 43 + 98 \div (149 - 42 - 58) \\ &= 43 + 98 \div 49 \\ &= 43 + 2 \\ &= 45 \end{aligned}$$
