

$$14 + \{ 63 - (13 - 6) \times 6 \} \div 7 - 4$$

$$\begin{aligned} & 14 + \{ 63 - (13 - 6) \times 6 \} \div 7 - 4 \\ &= 14 + (63 - 7 \times 6) \div 7 - 4 \\ &= 14 + (63 - 42) \div 7 - 4 \\ &= 14 + 21 \div 7 - 4 \\ &= 14 + 3 - 4 \\ &= 13 \end{aligned}$$
